LINUX

SPECIALIZED STUDIES PROGRAM • ONLINE

The Red Hat Linux Specialized Studies Program will give you the foundation needed to support and use the Linux operating system. Students who complete this program will be equipped to set up and administer Linux on a network, host websites on a Linux platform, as well as configure a network of Linux computers and peripheral devices. With the growth of Linux in the corporate environment, having these skills is a must for any IT professional.

WHO SHOULD ENROLL

This program provides detailed instructions on the installation, maintenance, and usage of Red Hat Linux. The primary audience consists of professionals who already have some experience with computer operating systems (such as Microsoft Windows) and may even have substantial experience as network administrators for non-Linux systems. These people understand fundamental operating system and networking concepts but need to learn how those concepts appear in a Linux environment.

In addition, the program will also benefit those who have little or no previous experience but are especially talented in working with computers and other technology. Such people may need to engage in substantial self-study outside of class or elicit extra assistance from their instructors. (After completing the first course, all students should be ready for the second and third courses.)

PROGRAM BENEFITS

- Be able to set up and administer the Linux operating system
- Set up users and user accounts
- Manage databases
- Host websites on a Linux platform
- Configure a network of Linux computers and peripheral devices
- Understand open-source systems and applications

SPECIALIZED STUDIES AWARD REQUIREMENTS

Students must complete at least 3 courses in the program with a grade of “C” or higher in order to receive the Red Hat Linux Administration Specialized Studies Award. Students not pursuing a specialized studies award are welcome to take as many individual courses as they wish.
PROGRAM FEES
Actual fees may differ from the estimate below. Fees are subject to change without prior notice.
Course Fees (3 courses) $2,850
Candidacy Fee $35
Total Estimated Cost $2,885

TO ENROLL
Visit ce.uci.edu/linux for full course descriptions, instructor biographies, and enrollment information.
