Advanced Project Management Certificate Program

Designed to provide experienced project managers and senior level managers with the advanced education they need to enhance project management skills and execute business strategies effectively, the Advanced Project Management certificate program prepares teams for the next frontier in project management.

Addressing advanced topics in project management, leadership and organizational change, students will acquire cutting-edge analytical skills in key project management processes, and delve into advanced tools and techniques to strategically execute projects, programs and portfolios.

Program Benefits

- Remain competitive and manage change in a multi-dimensional environment
- Learn to lead cross-functional teams in a global context
- Improve productivity and profitability
- Apply various introduced methodologies to improve success with complex projects
- Examine the supervisory and productivity issues related to managing multi-site projects
- Apply advanced scheduling methods
- Professional Development Units (PDUs) may be earned for individual courses

University of California, Irvine
Who Should Attend

- Experienced project managers, PMO professionals, and senior level managers and executives who want to expand their knowledge by focusing on today’s higher-level strategic project management issues, build on their expertise, acquire new skills, and go beyond PMP® accreditation
- Participants who plan, control or manage the execution of complex projects or programs
- Product development managers, business line managers, IT managers, financial managers, event managers, marketing directors, and other business professionals who need an advanced yet practical project management education

Eligibility and Prerequisites

Participants who wish to enroll in the Advanced Project Management Certificate Award need to have at least three years of project management practical experience. Several courses in the program satisfy the educational prerequisites for the following exams offered through the Project Management Institute, Inc.

- Program Management Professional (PgMP)®
- PMI Scheduling Professional (PMI-SP)®
- PMI Agile Certified Practitioner (PMI-ACP)®

Visit the Project Management Institute at pmi.org for more details.

Certificate Requirements

Individuals must complete courses totaling a minimum of 15.0 quarter units (150 hours), in any sequence, with a letter grade of “C” or better. To become an official candidate in the program, students pursuing the certificate must submit a Declaration of Candidacy. To receive the certificate after completing all program requirements, students must submit a Request for Certificate. All requirements must be completed within five (5) years after the student enrolls in his/her first course. Students not pursuing the certificate program are welcome to take as many individual courses as they wish.

PMP®, PgMP®, PMI-SP®, and PMI-ACP® are marks of the Project Management Institute, Inc. Provider is a member of PMI’s R.E.P. Program and PMI does not specifically endorse, approve, or warrant R.E.P.’s products, courses, publications, or services.
