MEDICAL PRODUCT DEVELOPMENT
CERTIFICATE PROGRAM • ONLINE

Emerging technologies, ever-changing regulations, and increased competition create many challenges for the medical product industry. UCI Division of Continuing Education’s program, developed with government and industry advisors, fulfills a recognized need for comprehensive professional learning in the successful design, development and delivery of medical devices, pharmaceuticals, and other biomedical products. The curriculum addresses the breadth of the development process, including a thorough understanding of compliance, engineering for improved performance, how to mitigate commercial and financial risks, and building marketing success.

WHO SHOULD ENROLL
- Regulatory professionals, such as those in regulatory affairs or quality assurance
- Engineers, such as those involved in biomedical product design and development
- Manufacturing professionals
- Clinical managers and other healthcare professionals
- Life science managers, such as research scientists and product managers

PROGRAM BENEFITS
- Gain the knowledge needed to design and create medical devices and pharmaceuticals
- Acquire an understanding of the medical device product development process and knowledge needed to manage medical device intellectual property rights
- Learn how to implement successful medical device design and manufacturing by avoiding common quality and regulatory pitfalls
- Earn professional development credits to maintain your RAC Credential with RAPS – Regulatory Affairs Professional Society
- Learn from instructors seasoned in practical industry experience who share their knowledge effectively

CERTIFICATE ELIGIBILITY AND REQUIREMENTS
A certificate is awarded upon completion of 15 credit units (9 required and 6 elective credit units), with a grade of “C” or better in each course. NOTE: 6 credit units may be counted toward the Clinical Trials: Medical Device and Drug Development or the Regulatory Affairs and Compliance program when courses are shared. All requirements must be completed within 5 years after the student enrolls in his/her first course. Students not pursuing a certificate are welcome to take as many individual courses as they wish.

### Transfer Credit

Graduates from UCI Division of Continuing Education’s Medical Product Development program are eligible to transfer credits to:

- **Northeastern University**, Master of Science in Regulatory Affairs for Drugs, Biologics, and Medical Devices OR Master of Science in Project Management
- **University of Wisconsin-Platteville** Online Master of Science in Engineering
- **Keck Graduate Institute (KGI)** Of Applied Life Science’s: Part-Time Master of Bioscience (MBS) Program

**NOTE:** Any student wishing to transfer credits must obtain a “B” or better in each course.

### To Enroll

Visit ce.uci.edu/mpd for full course descriptions, instructor biographies, and to enroll.

### Program Fees

The total cost of the certificate program varies depending on the electives chosen. Actual fees may differ from the estimate below. Fees are subject to change without prior notice.

- Course Fees (9 required and 6 elective units): $3,740
- Candidacy Fees: $125
- Textbook Fees: $560
- **Total Estimated Cost:** $4,425

---

† Candidates may take both courses and count one as an elective.
