Overview
The Clear Induction Administrative Services Credential (Clear ASC) is designed for full-time school administrators who hold the Preliminary Administrative Services Credential and now need to clear that preliminary credential by obtaining the Clear Administrative Services Credential.

The Clear ASC is an individualized, job-embedded, two-year program. As required by the California Commission on Teacher Credentialing (CTC), this primarily coaching-based program includes an individual induction plan, professional learning opportunities, and ongoing assessment.

The Clear ASC is offered jointly by UC Irvine Extension and UC Irvine School of Education and is a CTC approved Clear ASC program. As required by the CTC, in order to be eligible for a Clear Induction ASC program, one must possess a valid California Preliminary Administrative Services Credential and be a first-time (thus, relatively brand new) full-time administrator prior to enrollment into the program.

The Preliminary Administrative Services Credential is valid for five years. The intent of state law is that the holder will begin work on the Clear Induction Administrative Services Credential shortly after being hired in school administration.

The length of the Clear ASC program is two academic years which includes two required courses (EDUC X399A Induction and EDUC X399B Final Evaluation). Each required course is nine months long.

Course Descriptions

**EDUC X399A Induction (5 units)**
This coaching-based course is designed for individuals who have assumed an administrative role under a Preliminary Administrative Services Credential and who now need to complete a Clear Administrative Services Credential program. Candidates will enroll in the academic year-long EDUC X399A Induction course (5 units of credit) prior to enrolling in the academic year-long EDUC X399B Final Evaluation course (5 units of credit). Successful completion of these two courses, over two academic years, comprises the course work required for the Clear credential.

The central structure of the Clear ASC induction program is the coaching experience. At the beginning of the Induction course, each candidate selects a qualified, trained coach who he/she will work with throughout the two year program. Typically working in the same school and/or school district as the candidate, coaches are selected for skills and interest in fostering today’s educational leaders. In the Induction course, candidates develop a personalized Action Plan which outlines a path to achieve goals and objectives related to the first 3 of 6 (1, 2, and 3) California Professional Standards for Education Leaders (CPSEL). During the Induction course, candidates will complete approximately 20 hours of professional development as required in all Clear ASC programs. The professional development is offered online through the course website; however, a limited number of professional development hours can be acquired through the candidate’s work-related professional development opportunities.

**EDUC X399B Final Evaluation (5 units)**
This coaching-based course is designed for individuals who have successfully completed the academic year-long EDUC X399A Induction course (5 units of credit) after attaining an administrative role under a Preliminary Administrative Services Credential and who need to complete the Clear Administrative Services Credential program. Candidates will enroll in EDUC X399B Final Evaluation (5 units of credit) after successfully completing EDUC X399A Induction. In the Final Evaluation course, candidates typically continue working with the same coach he/she selected in the initial course. At the start of the Final Evaluation course, candidates work with their coach to revise the personalized Action Plan. The Action Plan for Final Evaluation reflects the second 3 of 6 (4, 5, and 6) California Professional Standards for Education Leaders (CPSEL). During the Final Evaluation course, candidates will complete approximately 20 additional hours of professional development as required in all Clear ASC programs. The professional development is offered online through the course website; however, a limited number of professional development hours can be acquired through the candidate’s work-related professional development opportunities.

**Fees**
Each course is $3,000, making the total cost of tuition $6,000. There are two application fees which you pay for after you complete your coursework and when you are applying for the credential (a $125 application fee to UCI and a $102.50 application fee to the CTC). Please note fees are subject to change.

A payment plan is available for the CASC program. The payment plan requires half of the tuition to be paid at the time of enrollment and the remaining tuition payment to be paid approximately 3 months from the start of the course. For an admitted candidate to avail himself/herself to the payment plan option, please contact UCI Extension’s Student Services office at (949) 824-5414 or unex-services@uci.edu.
Coaching
The Candidate is assigned a University Coach. The candidate will interact with the university coach synchronously and asynchronously through his/her online course sites. In addition to interacting with the university coach, the candidate will select a Supporting Mentor/Coach from his/her school district to interact with throughout the two-year program. The candidate will select a supporting mentor/coach who has achieved success as an educational leader and who exemplifies the CPSEL. The Supporting Mentor/Coach must be a stellar site or district office administrator with whom the candidate can develop a professional and collegial mentor/mentee relationship.

Using the program-developed Action Plan for identifying and organizing each candidate’s specific CPSEL-based focus areas, the supporting mentor/coach and candidate will meet regularly to determine progress of the candidate and steps for further growth (a minimum of 40 hours per year). The supporting mentor/coach will formally provide feedback to the candidate and program. The university coach will serve as the university course instructor to provide guidance and support to both the candidate and the supporting mentor/coach throughout the program.

The Supporting Mentor/Coach will be responsible for:
- Mentoring/Coaching the candidate for two academic years through an individualized job-embedded plan of leadership development, based on the California Professional Standards for Educational Leadership, which has been collaboratively developed by the candidate, the supporting mentor/coach, and university coach
- Providing formative and summative feedback to the candidate and the program
- Utilizing the online coach’s website
- Completing the initial orientation and supporting training provided on the coach’s website
- Determining a final recommendation for granting a Clear Administrative Services Credential to the candidate as a result of successful completion of all UC Irvine Extension requirements

Candidates are required to submit a signed Supporting Mentor/Coach Application/Agreement Form, which outlines expectations, responsibilities, and process at the beginning of the program.

Grading
Candidates will be graded in relation to their growth and the submission of required assignments during the courses. Growth will be measured according to candidate development toward mastery of the CPSEL selected as Goals/Focus Areas and determined, in part, by the Supporting Mentor/Coach’s feedback on candidate progress. The University Coach will assign a course grade based on the Supporting Mentor/Coach’s feedback, the quality of required submitted assignments, and the University Coach’s own evaluation of the student according to all submitted documentation.
