

Articulation Night

*Learn How You Can Apply Your UCI Certificate
towards a Master's Degree from the
University of Wisconsin-Platteville*

October 5, 2017

UNIVERSITY OF WISCONSIN
PLATTEVILLE
ONLINE

UCI Division of
Continuing Education

Agenda

- ❖ Welcome
- ❖ Program Articulations into UW-Platteville Degrees
- ❖ Student Speakers
 - ❖ William Yang
 - ❖ Rivan Paulos
- ❖ Karen Adams, UW-Platteville Online

Certificates that Articulate to UW-Platteville

- ❖ Medical Product Development
- ❖ Communications Systems Engineering
- ❖ Embedded Systems Engineering
- ❖ Information Systems Security
- ❖ Organizational Leadership and Communication
- ❖ Project Management

To learn more about each program visit the main UCI website at: <https://ce.uci.edu/> or UW- Platteville for transfer program information at: GoUWP.com.

William Yang

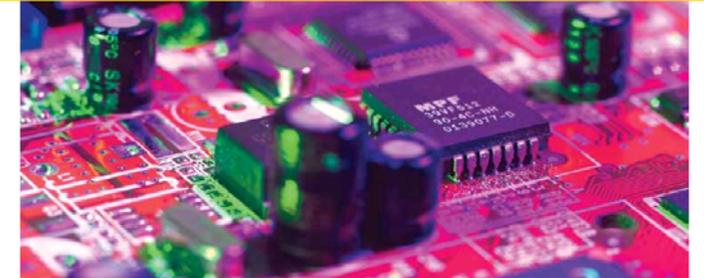

Although he had already earned undergraduate and graduate degrees, William Yang wanted to further expand his career opportunities. After earning a certificate in Project Management, William leveraged the articulation agreement with UW-Platteville to make a smooth transition into the master's degree program. "It's an online program, but it doesn't feel like it. I'm learning so much from my instructors as well as my fellow students." Currently in the program, William is also part of the NSF Master Scholars program, which offers scholarships, mentorships, and networking opportunities.

Rivan Paulos

Rivan Paulos was achieving success in his career, but wanted to learn more. After completing the Embedded Systems Engineering certificate, he realized that earning his master's degree in Engineering Management would provide him with the knowledge and perspective to more clearly understand the 'big picture.'

“Because of the articulation agreement between Irvine and Platteville, transferring my credits was quick and easy.” A December 2016 graduate, Rivan is applying his learning daily in his career.

Continuing Education

EMBEDDED SYSTEMS CERTIFICATE PROGRAM • ONLINE

Today's embedded systems development ranges from microprocessor-based control systems, to system-on-chip (SoC) design, and device software development. A myriad of implementations can be found in consumer electronics, medical devices, and commercial and military applications.

This certificate program looks at embedded systems engineering as a synergistic function between hardware and software device design and development. Participants learn the essential concepts of embedded systems development through a practical, hands-on approach utilizing industry design automation (EDA) tools and design kits.

Continuing Education

Karen Adams

Karen Adams is the Corporate Marketing Director at the University of Wisconsin-Platteville's Distance Learning Center. In this role, she has responsibility for oversight of the advertising, marketing, recruitment, and business development functions for the University's undergraduate and graduate online programs.

UNIVERSITY OF WISCONSIN
PLATTEVILLE
ONLINE

A graduate of Clarke University in Dubuque, Iowa, as a non-traditional student, her passion is in higher education – the opportunity to open the door to limitless possibilities for students.

What is an Articulation Agreement?

- ❖ Formal agreement between two or more colleges and universities
- ❖ Documents transfer policies
- ❖ For a specific program, or for a degree in general

What does it do for you?

- ❖ Cost effective
- ❖ Know exactly where you stand going into a master's program
- ❖ Allows you to better plan your educational strategy

How can you make it happen?

- ❖ Certificate must be earned PRIOR to acceptance into the master's program
- ❖ Meet standard admission requirements
- ❖ Tell your admissions specialist that you have earned a certificate

Why would you choose UW-Platteville?

- ❖ 100% online – no campus visits ever required
- ❖ No GRE or GMAT required
- ❖ Programs are asynchronous, not cohorted
- ❖ Fully accredited institution
- ❖ Consistently recognized for quality and affordability by U.S.
News & World Report and many others
- ❖ Consistently recognized as ‘Military-Friendly’
