CORPORATE EDUCATION

LIGHTING THE WAY FORWARD

Lighting the Way for the Future of Work.
Where industry challenges meet University insight.
Where your talent becomes your greatest advantage.

ABOUT US

At the UC Irvine Division of Continuing Education, we believe learning should illuminate new paths, not just fill gaps. Our Corporate Education team promises to design custom training experiences that build capability, spark innovation, and drive transformation.

Backed by the gold standard of UC Irvine, we offer more than content—we bring the best of both worlds: academic excellence and practical application and we ensure a consultative, strategic lens to every engagement. We listen deeply. We co-create. We deliver. And we hold ourselves to the highest academic and professional standards, ensuring your workforce is trained with the same rigor and excellence expected across the UC system.

This is corporate learning designed to light the way.

OUR DIFFERENCE

Built for Business. Powered by UC.

Our Values and Promise to Our Clients.

At the UC Irvine Division of Continuing Education, we see workforce development as more than a necessity—it's a catalyst for innovation, growth, and transformation. As the bridge between the University and industry, we design bold, UC-quality training experiences that empower organizations to rise to today's challenges and lead into the future.

Whether by cultivating in-house talent or connecting companies with UC Irvine's next generation of leaders, we help build an agile, future-ready workforce that don't just keep up—they set the pace.

»» Consultative by Design

We don't deliver off-the-shelf content—we design with intent. Our team begins with a discovery process to understand your business objectives, challenges, and unique culture. The result: training that feels native to your organization, not imported.

»» Rooted in Academic Excellence

As part of the prestigious University of California system, our programs reflect the same academic integrity and instructional quality that define a world-class research university. Our instructors and subject matter experts are hand-selected for both industry credibility and real-world insight.

»» Applied, Experiential Learning

Training is only valuable when it sticks. That's why our programs are interactive, participatory, and grounded in application. We use simulations, collaborative problem-solving, real-world scenarios, live discussions, and practical tools to ensure learning translates to impact.

»» Scalable & Flexible

Whether you're training 15 rising leaders or 500 global professionals, we tailor programs to fit your size, budget, and timeline. Delivery options include live virtual online, in-person, hybrid, or even onsite intensives.

OUR OFFERINGS

Training That Helps Your People Shine.

Our mission aligns with yours: to elevate talent, spark innovation, and build a workforce ready for what's next. Whether you need a targeted workshop or a multi-month leadership academy, we customize for every level and function.

Core Delivery Formats

Type	Description
Custom Workshops	2–8 hour targeted sessions on skills such as leadership, communication, strategic negotiation, generative AI and the future of work, emotional intelligence, or resilience.
Leadership Academies	3–5 day intensive experiences designed to transform mid- and senior-level leaders, including our exclusive programs: Supervisory Academy and Next Level Leadership.
Certificate Programs	5–9 month certificate programs designed for deep learning, available live or online, including Project Management, Lean Six Sigma, Global Leadership, and Cultural Intelligence.

Enterprise Partnership Program

Not every learning need requires a custom solution. Our Enterprise Partnership Program offers organizations an easy way to extend UC Irvine's professional development opportunities directly to their employees.

Through this partnership, your staff can enroll individually in any of our 40+ open-enrollment certificate programs and courses—covering topics from leadership and project management to technology and data science—at a preferred rate of 15% off tuition fees.

With no upfront costs, it's a simple, scalable way to invest in your people and help them shine—on their own schedule.

IMPACT & NEXT STEPS

Let's Build What's Next.

We're not just a training vendor—we're your strategic partner in talent development.

From first conversation to final evaluation, we bring clarity, creativity, and commitment to every engagement.

What Our Partners Say

"Their expertise, innovative mindset, and collaborative spirit ensure the County can continuously upskill..."

— Jamie Crews, Ed.D., SHRM SCP, County of Orange

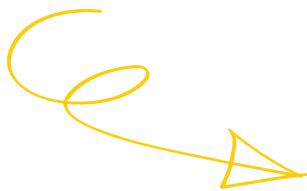

"The certificate programs ... significantly enhanced our employees' skills and productivity."

— Andy Spilsbury Walker, Edwards Lifesciences

Let's Shine Brighter—Together.

At UC Irvine, we don't offer one-size-fits-all answers. We listen first. We learn your goals. Then—only if we believe we can truly help—you'll get a solution shaped with purpose, expertise, and care. Because we're not here to sell. We're here to light the way forward for your people, your mission, and your future.

If you're ready to explore a learning partnership built on trust, excellence, and shared ambition—we're ready to listen.
